Skin ready for you to be
THE PERFECT GUEST
in record time

If time has caught up on you and the great day is a few days away, do not despair. You still have time to show off glowing skin and achieve a perfect look.

If you have an event coming up you will probably have studied your fashion style, complements and even hairstyle you are going to wear. But, did you take into account your skin? It's time to think of yourself and take care of yourself. The countdown begins.

These are the steps we recommend to have glowing skin and achieve a perfect look.

EXPERT ADVICE

If you want your skin to appear radiant and ready for makeup the day of the event, the ideal is to begin the cares at least a couple of weeks before.

Firstly, go to **Spa By Germaine de Capuccini**, in Àmare Marbella Beach Hotel, it will be the best option to personalise your treatment and choose the products and treatments most suitable for your skin type and needs.

The best option is a **flash beauty** in-booth treatment with **Vitamin C** that, apart from an extraordinary anti-oxidising and tone-unifying action, is known as the most effective illuminating ingredient in nature. The **TIMEXPERT C+ (A.G.E.)** cprofessional treatment achieves in a single session visibly more youthful skin with **spectacular luminosity**.

SEASONAL CURE

10 days before carry out a defatiguing cure for your skin to show off that **"good face" effect** we all look for. **SLEEPING-CURE recovers your skin while you sleep**, awaking more beautiful, fresh and with special luminosity, as if you had slept a few more hours. It also has flash results, **in a single night you can see the effects**.

THE DAY OF THE EVENT

As a final touch, add an express beauty treatment: the FLASH C RADIANCE mask, the latest innovation of the Germaine de Capuccini Laboratories, a **flash effect mask** with **Vitamin C** that works in record time. **15 minutes** is the time you need to achieve luminous, firm and toned skin in a comfortable and effective way. **Its effect is prolonged and achieves a perfect makeup finish.**
