

TIMEXPERT SRNS SLEEPING-CURE

Detox Night Concentrate

GERMAINE^{DE} CAPUCCINI
ADVANCED PROFESSIONAL COSMETICS

Inspired by the latest beauty secret of Asian women: “reset” the skin during sleep.

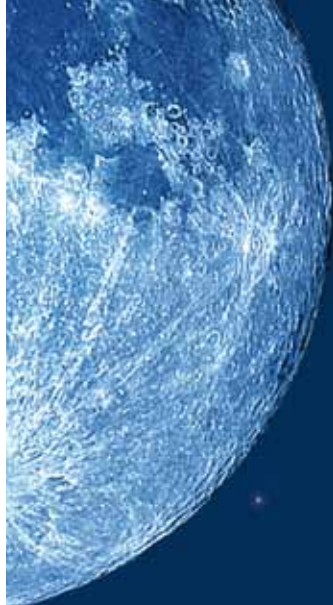

RESTORING SLEEP

To sleep well makes us prettier. You will have observed that, just after getting up, as by work of magic, your face has a smoother, more uniform, more youthful appearance. This happens because it is precisely during the night when the skin develops all its restoring and regenerating potential.

But there are times when our skin needs “extra help” to face a rhythm of life that overwhelms its natural capacity. At these times **SLEEPING-CURE** becomes essential.

Sleeping-Cure

Sleeping Beauty

WAKE UP LIKE NEW

SLEEPING-CURE is a detox night concentrate designed to put an end to the fatigued and suffocated appearance that makes your skin look 5 years older. A true intensive recoverer that works with maximum effectiveness during the “**23h-2h Golden Hours**”, when the cellular regeneration process reaches its highest point. In just 10 nights **SLEEPING-CURE** provides true sleeping beauty skin.

A concentrate with 60% of anti-oxidising, detoxifying, soothing and hydrating ingredients that work from the first night with total effectiveness for an almost magical awakening: the skin is visibly fresher, more relaxed, firm and luminous.

In just 10 nights the micro-relief is smoothed, the skin is revitalised and redensified. And all of this while you rest.

TIMEXPERT SRNS

Intensify your Stress Capital every day

When to apply SLEEPING-CURE?

Stress, special occasions,
change of seasons,
smokers, jet lag...

whenever your
skin needs it.

Apply SLEEPING-CURE

with the “sleep-inducing”
massage

TIMEXPERT SRNS from **Germaine de Capuccini** is a line created especially to protect the skin's Stress Capital, that is, the capacity of the skin to overcome environmental damage. Based on the **Natural Synchronised Regenerating System**, it stimulates self-protection during the day and reactivates the cellular regenerating mechanisms during the night. An intelligent strategy to delay skin ageing, preserving beauty and youthfulness.

Its star ingredient, **Zinc-Glycine Complex**, has been awarded with the prestigious Highest Award at the 20th IFSS Conference 2009 in Melbourne, a discovery that represents a true achievement in anti-ageing cosmetics. Also, the exclusive ingredient **RC-Advanced** protects and repairs cellular DNA.
