

# Conditions for free test

1

The hotel will pay for the minimum required covid test (PCR or antigens) for all members of the booking (maximum 2 people) for their return. Only valid for bookings made through our website or contact centre.

2

The amount of the booking must be equal to or greater than €2.000 per room and stay. This amount only includes the booked room and board, not extras.

3

The cost of this test cannot exceed €50 in the case of antigens and €100 in the case of PCR, otherwise the remaining amount will not be compensated by the hotel.

4

The client must go to reception to request an appointment at the hotel's collaborating medical centre. The client will not be able to choose the centre.

5

Only 1 test per person per stay will be covered.

6

The hotel will only pay for the tests if the competent authorities require such tests for your return to your country of origin.

7

If the amount of your booking is less than €2.000, the hotel offers special facilities and prices for the tests. Please ask at reception.
